

Surgical Conditions That Can Cause Hematuria and Homeopathic Remedies

Hematuria, or the presence of blood in urine, can result from various surgical conditions involving the urinary system. While surgical intervention may be necessary in some cases, homeopathic remedies can provide supportive care, help manage symptoms, and promote recovery. Below is a table listing common surgical causes of hematuria and the corresponding homeopathic remedies.

Table of Surgical Conditions and Remedies

Surgical Condition	Description	Symptoms	Homeopathic Remedies	Potency/Usage	Notes
Kidney Stones (Nephrolithiasis)	Hard deposits in the kidneys causing obstruction or irritation in the urinary tract.	Sharp, colicky pain in the flank, blood in urine, frequent urination.	<i>Berberis vulgaris</i> , <i>Cantharis</i> , <i>Lycopodium</i>	30C, 2–3 times daily.	<i>Berberis</i> for radiating pain; <i>Cantharis</i> for burning urination.
